## AquaChlorine TS 70

### Disinfection agent for waste water

#### Product description

AquaChlorine TS 70 is a high quality calcium hypochlorite in 20 gram tablets, with available active chlorine of 70%.

#### Application

AquaChlorine TS 70 is suitable for disinfection/treatment of soft and medium hard water. It is mainly applied in the maritime field for the treatment of waste water and sewage systems. (Sanitary systems and swimming pools)

#### Dosage

One tablet contains 14 gram of active chlorine. A 20 gram tablet increases the chlorine content of 1 m<sup>3</sup> water with 10 mg.

#### Composition

AquaChlorine TS 70 consists of 100% calcium hypochlorite of which 70, is active chlorine.

Chlorine content	min 70%
Product form	Tablet
Dimensions	32 mm diam.
Weight, approx.	20 gr.

#### Features and benefits

- Rapid bacteria kill
- Bacteria regrowth control
- Less chemical required to the job
- High chlorine content
- Easy to handle form
- Dissolves evenly

#### Product properties

Transport	IMDG class I page 5.1/5138 U.N. number 2880 AOR I RID 5.1 · item 15b ICAO / IATA 5.1 · packing group II
Packaging	Non-returnable buckets, 10kg nett. weight
Appearance	White tablet 20 gr
Bulk density	± 1 g/cm <sup>3</sup>
pH. cone.	12 (1% water sol.)
Flash point	none
Compatibility	none
Decomposition temp.	175°C
Oxidising properties	strong oxidizer
Water solubility	20g/100g water (20°C)
