Conductivity Tester

Type : SD 30

Art no. : 0500-000120

With its waterproof housing, the Conductivity Tester is ideal for regular checks in the Marine Industry.

Plus, the transparent lid not only provides a secure stand for the Pocket Tester in daily use, but also makes it easier to maintain the electrodes.

A three-colour LED lighting system - blue, green and red - and new display icons make the tester easy to use and intuitive to operate.

The use of energy saving LEDs and 4 x AAA batteries greatly extends the life of the new Pocket Tester range to up to 2000 hours.

The meter is supplied complete with compact robust carry case, batteries, lanyard and instructions.
