HATENBOERWATER
Fresh in water since 1906.

WATERLAB
Probe Box Set
For EXPERT Test Kit

The WATERLAB Expert supports probes for measuring pH, EC, TDS, salinity, ORP, and temperature.Probes connect via a USB Type-C cable and an A/D interface box. Once connected, the WATERLAB Expert controls the probes and records their measurements.

Results can be saved under user-defined sampling points and synchronized with the optional LabCOM Cloud.

Probe Box					
Item	Product Name	Operating Temp.	Led indicator	Input and output voltage	IP class
0525-000127	**Probe Box**	5 – 45 °C	Yes	5 V	IPX 5

Probe Box

Probes					
Item	Product Name	Temp Range	Range	Resolution	Temp. Probe
0525-000125	**pH Probe Field**	0 – 80 °C ATC	pH	0.01 pH	NTC 30KΩ
0525-000126	**EC Probe Field**	0 – 50 °C ATC	EC (K=1)	0-200 mS/cm	NTC 30KΩ
